06/11/2014	Toyota Motor Sales, USA, Inc.	<p>Manufacturer Safety recall issued NHTSA #15V285 Recall #DSF SAFETY RECALL DSF - FRONT PASSENGER AIRBAG INFLATOR MODULE Status: Remedy Available</p> <p>Locate an authorized Toyota dealer near you to schedule an appointment</p> <p>- Learn more about this recall</p>
------------	-------------------------------	--

Description: The subject vehicles are equipped with front passenger airbag inflators which may have been manufactured in such a way as to have a potential for the intrusion of moisture over time.

Depending on the circumstances, this could create excessive internal pressure when the airbag is deployed and cause the inflator to explode. In the event of an inflator explosion, metal fragments could pass through the airbag cushion material, striking the vehicle occupants and potentially resulting in serious injury or death.

Remedy: Toyota dealers are requested to replace the Airbag Inflator Module at NO CHARGE to the vehicle owner. Call 1-888-779-2075 to schedule your repair today!

01/27/2015	Toyota Motor Sales, USA, Inc.	<p>Manufacturer Safety recall issued NHTSA #15V043 Recall #DSB SAFETY RECALL DSB (SUPPLEMENTAL ACTION TO D0B) - REMEDY 2003 - 2004 MODEL YEAR COROLLA AND COROLLA MATRIX VEHICLES SUPPLEMENTAL RESTRAINT SYSTEM (SRS) ELECTRONIC CONTROL UNIT (ECU) Status: Remedy Available</p> <p>Locate an authorized Toyota dealer near you to schedule an appointment</p> <p>- Learn more about this recall</p>
------------	-------------------------------	--

Description: The Electronic Control Unit (ECU) for the Supplemental Restraint System (SRS) in these vehicles could have been manufactured with integrated circuits that are susceptible to internal short circuiting when exposed to certain electrical noise from various vehicle electrical components. If internal short circuiting occurs, the front airbag(s) and/or seat belt pretensioners could inadvertently deploy. An airbag that deploys inadvertently can, under some circumstances, increase the risk of minor injury and the possibility of a crash.

If internal short circuiting occurs, the front airbag(s) and/or seat belt pretensioners could inadvertently deploy. An airbag that deploys inadvertently can, under some circumstances, increase the risk of minor injury and the possibility of a crash.

Remedy: Any authorized Toyota dealer will install a sub-wire harness (filter), if not previously installed as part of Safety Recall D0B, and replace the SRS ECU at no charge to you.

06/28/2016	267,452	Massachusetts Motor Vehicle Dept.	Vehicle purchase reported

Glossary

[View Full Glossary](#)

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 6/17/19 at 10:50:38 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Massachusetts Damage Reports:

- Do not include an assessment of damage severity
- Are required if the estimated damage exceeds \$1000

Failed Emissions Inspection

The emissions check performed during a vehicle inspection indicated the vehicle was emitting more than allowable emissions standards and/or had missing or modified parts. Repeated failed emissions records can indicate engine problems and CARFAX recommends you have the vehicle inspected.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Inspections

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle

history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Toyota Recall / Service Campaign

Toyota Motor Sales, USA, Inc. provides CARFAX with recall and service campaign information for vehicles originally marketed or sold in the United States of America, its territories, and Mexico. Only open safety or emissions recalls and service campaigns where the remedy has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall and campaign activity for any Toyota vehicle, you must go to <http://toyota.com/recall>.
